

High-Speed Flatbed Lockstitch Sewing Machine

This high-speed, single-needle flatbed lockstitch sewing machine is designed for efficient and precise stitching on a variety of fabrics. Its flatbed design provides a stable work surface, and the lockstitch mechanism ensures secure, consistent stitching for apparel and textile applications.

Overview

Professional Industrial Lockstitch Machine

This high-speed single-needle flatbed lockstitch sewing machine is engineered for efficiency and precision across a wide range of textile applications. Designed for industrial environments like garment factories and textile workshops, it features a robust construction that ensures stability during high-speed operation. The machine includes a user-friendly interface for seamless adjustments to stitch length and tension, alongside an automatic lubrication system for enhanced durability.

Performance & Features

Machine Type	Single-needle flatbed lockstitch
Key Features	High-speed operation, Automatic lubrication, Flatbed design, Adjustable stitch length, Adjustable tension

Safety & Compliance

Safety Features

- Needle guard
- Emergency stop button
- Warning labels for eye protection

Identification

Model Number	TY-6650
Country of Origin	Taiwan
