

High-Speed Flatbed Lockstitch Sewing Machine

This high-speed single-needle flatbed lockstitch sewing machine is designed for efficient and precise stitching on a variety of fabrics. It features a robust construction for durability and stability during operation.

Overview

High-Speed Flatbed Lockstitch Sewing Machine

This high-speed single-needle flatbed lockstitch sewing machine is engineered for efficient and precise stitching across a diverse range of fabrics. Built with a robust construction, it ensures exceptional durability and stability during intensive industrial operation. The machine incorporates advanced mechanisms to facilitate smooth feeding and consistent stitch formation, making it an ideal solution for apparel manufacturing and textile production environments.

Technical Specifications

Model Number	TY-1130H
Machine Type	Single-needle flatbed lockstitch
Primary Applications	Apparel Manufacturing, Textile Production, Industrial Sewing

Safety

Operational Safety

- Read and follow all safety rules
- Failure to comply may result in serious injury
- Risk of electric shock
- Risk of burning
