

High-Speed Flatbed Lockstitch Sewing Machine

This high-speed, single-needle flatbed lockstitch sewing machine is designed for apparel and textile manufacturing. It features robust construction and adjustable settings for various fabric types, making it suitable for a wide range of sewing applications.

Overview

Industrial Performance

This high-speed single-needle flatbed lockstitch sewing machine is engineered for demanding apparel and textile manufacturing environments. It features robust construction to ensure long-term reliability and precise stitch formation across a variety of fabric types. Designed for efficiency, this machine provides adjustable settings to accommodate diverse sewing applications, making it a versatile asset for production lines.

Technical Specifications

Machine Type	Single-needle flatbed lockstitch
Suitable Applications	Apparel Manufacturing, Textile Production

Safety & Compliance

Operational Safety

- Keep hands away from moving parts
- Avoid contact with needle
- Protect against eye injury from broken needles or thread
- Exercise caution during cleaning, threading, or needle replacement
