Product Overview

High-Speed HDMI Connectivity

This High-Speed HDMI cable with Ethernet is engineered for reliable, high-bandwidth transmission of uncompressed digital audio and video signals. Featuring premium Oxygen Free Copper conductors and triple shielding, it ensures optimal signal integrity and reduced interference. Designed for durability, the cable includes a robust zinc alloy housing and a protective black PVC jacket with nylon mesh, making it an ideal choice for professional A/V setups.

Technical Specifications

Conductor Material	Oxygen Free Copper
Wire Gauge (AWG)	28/30AWG
Cable Diameter	7.3/6.0mm
Shielding	ALMG, Triple Shielding
Connector Housing	Zinc alloy
Contact Plating	24K Gold Plated

Physical Properties

Available Lengths

- 0.5M
- 1M
- 1.5M
- 2M
- 3M

Jacket Material	Black PVC with nylon mesh
Termination Types	HDMI, 19PIN, Male to Male

Compliance

Certifications

RoHS • UL • CE
