

High-Speed Industrial Mixer

This high-speed mixer is engineered for efficient and thorough mixing of diverse materials. It is equipped with a large mixing chamber, feeding hopper, discharge outlet, and a user-friendly control panel.

Product Overview

High-Speed Industrial Mixer

This high-speed industrial mixer is designed for efficient and thorough processing of various materials, making it an essential unit for plastic and rubber manufacturing. It features a robust construction with a large mixing chamber, a dedicated feeding hopper, and a reliable discharge outlet. Equipped with a powerful electric motor and an integrated control panel, this unit ensures consistent performance and ease of operation for demanding industrial applications.

Technical Specifications

Primary Application	Rubber Processing, Plastic Processing, Industrial Mixing
Equipment Category	Rubber Kneader / Hybrid Mixing Set

Design & Build

Key Construction Features

- Large capacity mixing chamber
- Top-mounted feeding hopper
- Integrated discharge outlet
- Sturdy base mounting

Control System	Yes
