

High-Speed Lockstitch Sewing Machine

This high-speed lockstitch sewing machine is designed for efficient and precise stitching. Its robust build is suitable for industrial use, featuring adjustable stitch length and an automatic lubrication system.

Product Overview

High-Performance Industrial Sewing

This high-speed lockstitch sewing machine is engineered for maximum efficiency and precision in professional sewing environments. Built with a robust design for demanding industrial use, it ensures consistent performance across a variety of fabric types. With features like an automatic lubrication system and adjustable stitch length, it is an ideal solution for increasing productivity and maintaining high-quality output.

Technical Specifications

Stitch Type	Lockstitch
Lubrication System	Automatic
Stitch Length Adjustment	Yes

Key Features

Build Quality	Robust Design • Durable
Suitable Applications	Industrial Use, Various Fabrics, High Productivity
