

High-Speed Lockstitch Sewing Machine

This high-speed lockstitch sewing machine is designed for use with different materials. It has an advanced noise-decreasing device and maintains reliability and durability at a high speed of 5000 r/min.

Overview

High-Speed Performance and Reliability

The ODL8500 series is a versatile high-speed lockstitch sewing machine designed to handle a variety of materials with precision. Engineered with an advanced noise-decreasing device, this machine ensures a quieter working environment while maintaining exceptional reliability and durability during high-speed operations. Available in multiple configurations, it is built to meet the diverse demands of professional sewing environments.
