

High-Speed Lockstitch Sewing Machine with Automatic Thread Trimmer

This is a high-speed lockstitch sewing machine with an automatic thread trimmer designed for industrial use. The machine is engineered for precision and durability, making it suitable for a variety of sewing applications.

Overview

Industrial High-Speed Performance

This high-speed lockstitch sewing machine is engineered for demanding industrial environments, focusing on precision and operational efficiency. Equipped with an automatic thread trimmer, it significantly reduces manual labor and enhances throughput for garment and textile production. Its robust construction ensures long-term reliability and stable performance during continuous operation.

Key Features

Core Functionalities

- Automatic thread trimming system
- Automatic lubrication system
- Adjustable stitch length
- High-speed operation
- Powerful motor for consistent performance

Applications

Suitable Industries

Garment Manufacturing, Upholstery, Textile Production

Performance Metrics

Operational Capabilities

1 Lockstitch

Stitch Type
