

High Speed Overlock Sewing Machine

This high-speed overlock sewing machine is designed for apparel and textile manufacturing. The machine is engineered for efficient and precise overlocking, providing clean and durable seams.

Product Overview

GM700 Series High Speed Overlock

The GM700 series is a professional-grade high-speed overlock sewing machine engineered specifically for demanding apparel and textile manufacturing environments. Designed for efficiency and precision, this machine delivers clean, durable seams while maintaining consistent performance over long production runs. Its robust construction ensures reliability in industrial settings, making it an ideal choice for high-volume garment production lines.

Technical Specifications

Series Model	GM700-4
Primary Application	Apparel Manufacturing, Textile Production, Industrial Overlocking

Key Features

Performance Features

- High-speed operation for increased productivity
- Adjustable settings for diverse fabric types
- Robust industrial-grade construction
- Precision seam formation
