

High-Speed Plastic Bag Making Machine

This high-speed plastic bag making machine is designed for efficient production of various plastic bags. It features automatic feeding, sealing, cutting, and stacking mechanisms.

Product Overview

High-Speed Plastic Bag Production

This high-speed plastic bag making machine is engineered for the efficient and precise production of various plastic bag types, including flat bags and T-shirt bags. It features an advanced servo motor control system that ensures reliable operation and consistent output quality. Designed for durability and high performance, it integrates automatic feeding, sealing, cutting, and stacking mechanisms to streamline your manufacturing process.

Technical Specifications

Production Speed

150 bags/min

Max Speed

50 bags/min

Min Speed

Bag Dimensions

Dimension	Range
Bag Width	200-600 mm
Bag Length	100-800 mm
Film Thickness	0.02-0.1 mm

Operational Requirements

Power Requirements	380V/50Hz
Air Pressure	0.6 MPa

Features

Compatible Bag Types

- Flat Bags
- T-shirt Bags
- Custom Bag Designs

Key Capabilities

Automatic Feeding, Automatic Sealing, Automatic Cutting, Automatic Stacking, Servo Motor Control
