

# High-Speed Stainless Steel Spin Dryer

This high-speed spin dryer is constructed with a durable stainless steel body for longevity and corrosion resistance. Its efficient spinning action rapidly removes excess water from clothes, significantly reducing drying time.

## ADDITIONAL IMAGES

## Overview

### Professional High-Speed Spin Dryer

This high-speed stainless steel spin dryer is designed for efficient water extraction, significantly reducing drying time compared to conventional tumble dryers. Featuring advanced gyroscopic self-balance technology and a robust braking system, it ensures reliable and safe operation in various professional or household settings. The unit is compact, easy to operate, and built with durable materials to withstand frequent use.

## Performance

### Spin Speed

**2800 RPM**

50Hz Speed

**3200 RPM**

60Hz Speed

### Braking Time

5 s

## Technical Specifications

### Load Capacities

- 6.6lb (3kg)
- 13.2lb (6kg)

### Material Construction

Component	Material
Inner Drum	430 Stainless Steel
Outer Drum	White Pre-painted Steel

## Safety & Compliance

### Safety Features

- Child lock cover system
- Gyroscopic self-balance system
- Automatic lid interlock

### Certifications

EMC, LVD, REACH, ROHS, ETL, PSE, KC

## Logistics

### Container Loading (20'/40GP/40HQ)

276/558/656 sets
