

High-Speed Steel Circular Saw Blade

High-speed steel circular saw blade designed for cutting various materials. Features precision-ground teeth for smooth and efficient cutting performance.

Product Overview

High-Performance Circular Saw Blade

This high-speed steel circular saw blade is engineered for precision and efficiency across a variety of materials, including wood, metal, and plastic. Featuring precision-ground teeth, it delivers smooth, clean, and accurate cuts while minimizing vibration and noise during operation. Constructed from hardened and tempered high-quality steel, this blade is built for long-lasting durability and consistent performance in demanding work environments.

Technical Specifications

Key Features

- Precision-ground teeth
- Hardened and tempered construction
- Minimal vibration design
- Precision machined central bore

Material	High-Speed Steel (HSS)
Compatible Materials	Woodworking, Metalworking, Plastic Cutting

Performance Metrics

Operational Performance

1 Minimal
Vibration Level

1 Reduced
Noise Level
