

High-Speed Steel Circular Saw Blade

This high-speed steel circular saw blade is designed for cutting wood, metal, and plastics. Its precision-ground teeth ensure smooth and accurate cuts, while the hardened steel construction provides durability and reduces heat buildup.

Product Overview

High-Speed Steel Circular Saw Blade

This high-speed steel circular saw blade is engineered for precision and durability across a variety of cutting applications. Designed for compatibility with multiple power tools and machinery, it features precision-ground teeth that ensure smooth, accurate cuts while minimizing heat buildup. Its hardened steel construction provides long-lasting performance and efficient material removal for wood, metal, and plastic projects.

Technical Details

Key Features

- Precision-ground teeth for smooth cuts
- Hardened steel construction for durability
- Heat reduction design
- Efficient material removal

Material	Hardened High-Speed Steel
Suitable Materials	Wood, Metal, Plastics
