

High-Speed Steel Circular Saw Blade

This is a high-speed steel circular saw blade suitable for woodworking, metalworking, and plastic cutting. It features precision-ground teeth for smooth, efficient cutting.

Product Overview

High-Performance Cutting Solution

This high-speed steel (HSS) circular saw blade is engineered for versatility and precision across multiple industrial applications. Featuring precision-ground teeth, it delivers smooth, efficient cuts while maintaining durability for long-term use. It is an ideal choice for professionals working with wood, metal, and plastic materials.

Technical Details

Material	High-Speed Steel (HSS)
Compatible Materials	Woodworking, Metalworking, Plastic Cutting

Performance Features

Key Features

- Precision-ground teeth for smooth operation
- High-quality steel construction
- Engineered for extended service life
- Versatile cross-material compatibility
