

High-Speed Steel Countersink Drill Bit

This high-speed steel cobalt (HSS-CO) countersink drill bit is designed for creating 90-degree countersunk holes. It features three cutting edges for efficient and clean material removal.

Product Overview

High-Speed Steel Countersink Drill Bit

This high-speed steel cobalt (HSS-CO) countersink drill bit is engineered for precision and durability in metalworking applications. Featuring a 90-degree countersink angle and three cutting edges, it ensures efficient and clean material removal for professional-grade results. The TiN-coated surface treatment enhances wear resistance and extends tool life, making it a reliable choice for diverse industrial drilling tasks.

Technical Specifications

Surface Treatment

TiN-Coated

Material

HSS-CO (High-Speed Steel Cobalt)

Countersink Angle

90 degrees

Cutting Edges

3

Available Sizes

Dimensions Table

Flute Diameter (mm)	Shank Diameter (mm)	Total Length (mm)
6.3	8	56
8.3	5	45
10.4	6	50
12.4	6	50
16.5	10	60
20.5	10	63
25	10	67
30	12	71
