

High-Speed Steel Metal Cutting Saw Blade

This high-speed steel circular saw blade is designed for precision cutting of metal. It features a fine-tooth design for smooth and accurate cuts in metal cutting saws and shearing machines.

Product Overview

High-Speed Steel Metal Cutting Saw Blade

This high-speed steel circular saw blade is engineered for precision metal cutting applications. Featuring a fine-tooth design, it ensures smooth and accurate cuts for professional results. Constructed from durable, high-quality materials, the blade provides extended tool life and consistent performance across various metal cutting saws and shearing machines.

Technical Specifications

Material	High-Speed Steel (HSS)
Blade Type	Circular Saw Blade
Suitable Equipment	Metal Cutting Saws, Shearing Machines

Performance Features

Performance Highlights

- Fine-tooth design for precision
- Smooth and accurate cutting capability
- Durable construction for extended life
- Optimized bore for secure mounting and power transfer
