Product Overview

High-Performance Power Saw Blades

Engineered for precision and durability, these high-speed steel (HSS) power saw blades are designed for demanding industrial environments. Featuring uniform hardness and exceptional tooth sharpness, they provide reliable cutting performance across a wide range of materials. Available in various sizes and tooth configurations, these blades are built to withstand heavy-duty usage in professional factory settings.

Technical Specifications

Tooth Options

- 4T
- 6T
- 10T

Material	High-Speed Steel (HSS)
Available Size Range	12" - 30", 300mm - 750mm
Item Number	H555

Logistics & Packaging

Packaging

10 pcs

Units per Box

100 pcs

Units per Carton

Surface Finish	Paint with printing
