

High-Speed Steel Tap and Drill Bit Set

These high-speed steel tap and drill bit sets are available in spiral fluted and spiral point configurations. The sets include 7-piece tap sets and 14-piece tap and drill sets.

Overview

High-Speed Steel Tap and Drill Bit Sets

This professional-grade tap and drill bit set is designed for precision threading and drilling operations in various industrial applications. Constructed from durable high-speed steel (H.S.S), these tools ensure long-lasting performance and reliability. The sets are available in multiple configurations, including 7-piece tap sets and comprehensive 14-piece tap and drill combinations, all adhering to DIN371/DIN376 standards for compatibility and quality.
