

High Speed Two-Needle Lockstitch Sewing Machine

This high-speed, two-needle lockstitch sewing machine is designed for efficient and precise stitching. It features a robust construction for stability during high-speed operation and ensures high-quality seams.

Overview

High-Efficiency Performance

The GC9420 is a high-speed, 2-needle lockstitch sewing machine engineered for precision and efficiency in textile manufacturing. Designed with a robust architecture, it ensures stability during high-speed operations while delivering consistent, high-quality seams. Its user-friendly control panel allows for seamless adjustments of sewing parameters, making it an ideal solution for garments, upholstery, and technical textiles.

Technical Specifications

Model Number	GC9420
Machine Type	2-Needle Lockstitch

Applications

Suitable Applications	Garments, Upholstery, Technical Textiles
-----------------------	--

Features

Key Features

- High-speed operation
- Robust construction for durability
- User-friendly control panel
- Easy maintenance design
