Product Overview

High-Strength Linear Contact Wire Rope

This high-strength linear contact lay wire is engineered for demanding industrial applications requiring superior durability. Featuring a specialized 8 x 41WS+IWR construction, it is designed to maximize flexibility and load-bearing capacity. This wire rope is an ideal solution for heavy-duty lifting equipment, including cranes and hoists, ensuring reliability in rigorous operational environments.

Technical Specifications

Construction	8 x 41WS+IWR
Wire Category	Linear contact lay wire

Application

Recommended Applications	Cranes, Hoists, Lifting Equipment, Industrial Machinery
