Overview

High-Performance Air Circulation

This high-velocity fan series is engineered for powerful airflow and efficient cooling in demanding environments. Featuring a durable metal construction and high-quality motors, these units are ideal for high humidity and temperature conditions. The versatile lineup includes stand, floor, oscillating, and drum fan configurations, with brushless DC motor options available for enhanced energy efficiency.

Key Features

Performance Highlights

7500 m³/h
Max Air Volume

1500 RPM
Max Rotation Speed

Available Configurations

Stand Fan, Floor Fan, Oscillating Fan, Wall Fan, Drum Fan

Technical Specifications

Model Specifications

Model	Voltage	Power	Air Volume
SF-16/A	230V	50	880
HVSF-35	230V	120	1050
HVSF-45C-A	120V	120	1800
HVSF-65	220-240V	280	3500
HVSF-75	120V	210	4000

Design & Build

Safety Features

- Protective safety grill
- Sturdy base for stability
- Adjustable tilt for focused airflow

Material & Finish

Durable metal construction with elegant finish
