

High-Velocity Floor Fan for Air Circulation

This high-velocity floor fan is engineered for powerful air circulation. Its robust construction and high-performance motor deliver exceptional airflow for effective cooling and ventilation.

Product Overview

High-Velocity Performance

The HV-20H(1) is a high-velocity floor fan engineered for powerful air circulation in demanding environments. Featuring a robust construction and a high-performance motor, it delivers exceptional airflow suitable for cooling and ventilation in garages, workshops, and large spaces. With an adjustable tilt mechanism and a sturdy base, this fan provides both precise directional control and reliable stability during operation.

Technical Specifications

Model Number	HV-20H(1)
Fan Type	High-Velocity Floor Fan

Features

Key Features	High-Velocity Airflow, Adjustable Tilt, Protective Metal Grill, Sturdy Base
--------------	---

Applications

Recommended Environments

- Residential Use
- Garages
- Workshops
- Industrial Ventilation
