Product Overview

High-Visibility Electronic Flasher

This high-visibility electronic flasher is engineered for reliable visual signaling in diverse environments. Featuring a durable, waterproof construction, it is ideal for marine, industrial, and emergency applications. The unit utilizes energy-efficient LED technology to ensure long-lasting performance and clear visibility.

Technical Specifications

Ingress Protection

IP65

Light Source

LED

Flash Pattern

Single Flash

Power Source

2x 1.5V Battery (A1x2)

Physical Characteristics

Body Color

Red

Recommended Applications

Marine, Industrial, Emergency Signaling, Marker Light
