

High-Visibility Protective Safety Helmet

This high-visibility safety helmet offers optimal head protection for various work environments. It is constructed from durable, impact-resistant materials and includes ventilation holes for enhanced breathability and comfort.

Product Overview

Professional High-Visibility Safety Helmet

This high-visibility protective safety helmet is engineered for superior impact resistance and user comfort in demanding industrial environments. Featuring an 8-point attachment system, it provides robust protection while integrated ventilation holes ensure efficient heat dissipation during long shifts. The helmet is designed for versatility, offering compatibility with various safety masks and ear muffs to meet comprehensive workplace safety requirements.

Technical Specifications

Material	ABS
Attachment Points	8 points

Adjustment and Comfort

Adjustment Type	Knob, Buckle
Head Hoop Material	High intensity fiber tape

Features

Accessory Compatibility

- Ear muffs
- Safety masks

Ventilation	Yes
