

High-Visibility Reflective Safety Vest

This high-visibility safety vest enhances visibility in various work environments. It is constructed from durable, fluorescent yellow fabric and features reflective stripes on the front and back for visibility in low-light conditions.

Product Overview

High-Visibility Safety Solution

This high-visibility safety vest is engineered to maximize wearer visibility in demanding work environments. Constructed from durable, fluorescent yellow fabric, it integrates reflective stripes on both the front and back to ensure safety in low-light conditions. Designed for comfort and extended wear, this lightweight vest is an essential piece of personal protective equipment for construction sites, road work, and other high-risk areas.

Design & Features

Common Applications

- Construction sites
- Road work
- Low-light environments

Comfort

Lightweight • Extended-wear design

Closure Mechanism

Hook and loop closure

Visibility Features

Reflective Stripes, Fluorescent Fabric
