

High-Visibility Safety Vest for Industrial Environments

This high-visibility safety vest is designed for industrial environments, especially those with metal forming machinery. It features fluorescent yellow fabric and reflective stripes to enhance visibility in low-light conditions.

Product Overview

Industrial High-Visibility Safety Solution

This high-visibility safety vest is engineered specifically for demanding industrial environments, such as rolling mills and metal forming facilities. It features a high-contrast fluorescent yellow fabric paired with reflective striping to ensure worker safety and visibility in low-light conditions. The garment is designed with a practical V-neck and a simple, efficient closure system for ease of use during shift operations.

Technical Details

Color	Fluorescent Yellow
Neck Style	V-neck
Key Safety Features	High-Visibility, Reflective Stripes, Fluorescent Fabric

Use Case

Recommended Environments

- Industrial facilities
- Metal forming machinery areas
- Rolling mills
- Low-light hazardous zones
