

High-Visibility Safety Vest

This high-visibility safety vest ensures maximum visibility and safety in demanding work environments. Made from durable textile, it features reflective strips for enhanced visibility in low-light conditions.

Product Overview

Professional High-Visibility Safety Vest

This high-visibility safety vest is engineered for maximum protection in demanding industrial and outdoor work environments. Constructed from durable, high-visibility yellow textile material, it integrates reflective strips to ensure superior safety in low-light conditions. Designed for versatility, it is easily worn over standard work clothing, making it an ideal choice for construction sites, road maintenance crews, and various industrial applications.

Technical Specifications
