

High-Visibility Waterproof Raincoat

This high-visibility yellow raincoat is designed for optimal protection in wet weather. It is constructed from durable, waterproof material with sealed seams and reflective stripes for enhanced visibility.

Product Overview

High-Visibility Waterproof Raincoat

This durable raincoat is engineered for professionals working in wet, low-visibility environments. Constructed from high-quality polyester with a protective PVC coating, it ensures complete dryness while maintaining visibility day and night. The design includes practical features such as an adjustable hood, secure pockets, and adjustable cuffs to provide a comfortable and functional fit for outdoor work.

Material & Construction

Material	Polyester with PVC coating
