

Hole Saw Set

This hole saw set includes multiple hole saws of different diameters, an arbor, and a pilot drill bit. The circular blades with toothed edges are designed for cutting holes in wood, metal, and plastic.

Product Overview

Professional Hole Saw Set

This comprehensive hole saw set is designed for precision cutting across a variety of materials including wood, metal, and plastic. The kit includes multiple hole saw diameters, an arbor for secure attachment to drill chucks, and a pilot drill bit for accurate hole placement. Organized in a convenient storage case, this set is an essential tool for trade professionals and DIY enthusiasts requiring clean, circular cuts.
