

Home Theater 5.1 Channel Speaker System

This home theater speaker system delivers immersive audio experiences. It includes tower speakers, satellite speakers, a center channel speaker, and a powered subwoofer.

Product Overview

Immersive Audio Solution

The HT-900 is a comprehensive 5.1 channel home theater speaker system designed to deliver an immersive audio experience for movies, music, and gaming. This complete setup includes two tower speakers, two satellite speakers, one center channel speaker, and a dedicated powered subwoofer, ensuring accurate and detailed sound reproduction across all frequencies. With its modern silver finish, this system is engineered to seamlessly integrate into any home entertainment environment while providing powerful front audio and clear dialogue.
