

Home Theater Surround Sound System

This home theater system delivers immersive sound experiences through a subwoofer and satellite speakers. It provides adjustable controls and multiple connectivity options for customized audio and seamless integration.

System Overview

Immersive Audio Performance

The DJ-5108A Home Theater System is a 5.1 channel audio solution designed to transform home entertainment environments. By combining a dedicated high-performance subwoofer with five specialized satellite speakers, the system delivers a balanced and cinematic soundstage. Its robust design is engineered for both movie enthusiasts and gamers who require clear high frequencies paired with deep, resonant bass.

Technical Specifications

RMS Power Output

15 W Subwoofer	3 W Satellite (x5)
--------------------------	------------------------------

Driver Units

Component	Driver Size
Subwoofer	5.25 inch
Satellite	3 inch

Frequency Response

- Subwoofer: 40Hz - 160Hz
- Satellite: 140Hz - 20KHz

Performance & Build

Total Harmonic Distortion (THD)	0.5 %
System Type	5.1 Surround/Satellite

Dimensions

Physical Dimensions

Unit	Dimensions (W x H x D)
Subwoofer	150 x 330 x 320 mm
Satellite	85 x 190 x 85 mm

Connectivity

Input/Output Configuration	Wired Input, Wired Output
----------------------------	---------------------------
