

Honey Dipper with Ribbed Tip

This honey dipper is designed with a ribbed tip to efficiently collect and dispense honey. It features a loop at the top for easy handling and storage.

Product Overview

Professional Honey Dipper

This high-quality honey dipper is designed for efficient collection and distribution of viscous liquids like honey. Featuring a precision-ribbed tip, it captures and retains honey to prevent messy drips during serving. Its durable construction is ideal for food-service environments, providing a reliable and hygienic solution for professional kitchens and catering.
