

Horizontal Flow Wrapper

This horizontal flow wrapper is designed for high-speed packaging of various products. It features adjustable forming box, automatic film feeding, and precise sealing mechanisms.

Product Overview

Horizontal Flow Wrapper

This horizontal flow wrapper is engineered for high-speed, efficient packaging across diverse industries, including food, pharmaceutical, and industrial sectors. It features an adjustable forming box and automatic film feeding systems, ensuring versatility for various product sizes and shapes. Built with durable stainless steel, it prioritizes hygiene and long-term reliability for professional production environments.

Key Features

Material	Stainless Steel
Safety Systems	Emergency Stop, Overload Protection

Operational Capabilities

Operational Highlights

- High-speed packaging capability
- Adjustable forming box
- Automatic film feeding
- Precise sealing mechanisms

Control System	Integrated control panel for parameter adjustment
----------------	---

Quality Assurance

Testing Equipment Available

- Three coordinate measuring instrument
- Hardness tester
- Impact tester
- Salt spray test machine

Quality Control Methods	PC, CPK, GR&R, FMEA
-------------------------	---------------------
