

Horizontal Flow Wrapping Machine

This horizontal flow wrapping machine is designed for high-speed packaging of various products. It features an adjustable forming box, automatic film splicing, and a user-friendly control panel with digital display.

Overview

High-Speed Horizontal Flow Wrapper

This horizontal flow wrapping machine is engineered for high-speed, consistent packaging across diverse industries, including food, pharmaceuticals, and industrial goods. It features an adjustable forming box and automatic film splicing to ensure seamless operation and reduced downtime. Built with stainless steel, the machine prioritizes durability and hygiene while offering a user-friendly digital control panel for precise operation.

Technical Specifications

Construction Material	Stainless Steel
Key Features	Adjustable Forming Box, Automatic Film Splicing, Digital Control Panel, High-Speed Packaging

Applications

Suitable Industries

Food • Pharmaceutical • Industrial
