

# Horizontal Masticating Juicer for Fruits and Vegetables

This horizontal slow juicer efficiently extracts juice from various fruits, vegetables, and leafy greens. Its horizontal auger system gently crushes and presses ingredients to maximize juice yield and minimize oxidation, preserving nutrients and enzymes.

## ADDITIONAL IMAGES

## Product Overview

### Professional Horizontal Masticating Juicer

This horizontal slow juicer is engineered for efficient extraction from a wide variety of fruits, vegetables, and leafy greens. Utilizing a gentle auger system, it minimizes heat and oxidation to preserve essential nutrients and enzymes in every glass. Designed for durability and continuous operation, this unit is an ideal solution for health-focused commercial or high-end residential kitchen environments.

## Technical Specifications

Rated Power	150 W
Operating Speed	60 RPM
Voltage Compatibility	110-120V, 220-240V
Frequency	50/60Hz

## Materials & Components

### Included Strainers

- Juice strainer
- Processing strainer

### Drum & Container Material

Eastman Tritan PCTG

## Key Features

### Performance Highlights
