

Horizontal Metal Cutting Band Saw

This horizontal band saw is designed for cutting metal stock. It features an adjustable work holding vise, coolant system, and blade speed control.

Product Overview

Professional Horizontal Metal Cutting Band Saw

This horizontal metal cutting band saw is engineered for precise and efficient cutting of various metal stocks. Built with a heavy-duty frame, it provides the stability required for demanding industrial applications. The unit comes fully equipped with essential features including an adjustable work holding vise, an integrated coolant system, and precise blade speed control to optimize cutting performance.

Technical Specifications

Cutting Capabilities

- Horizontal cutting orientation
- Adjustable work holding vise
- Integrated coolant system
- Blade speed control

Construction

Heavy-duty frame • Industrial grade

Model Number

4035
