

Horizontal Metal Cutting Band Saw

This horizontal metal cutting band saw is engineered for precision and efficiency in metalworking applications. It features robust construction, variable speed control, and hydraulic downfeed for controlled cutting.

Overview

Precision Metal Cutting Solution

This horizontal metal cutting band saw is engineered for high-precision and efficiency in diverse metalworking applications. Featuring a robust construction, it offers variable speed control and a hydraulic downfeed system for highly controlled, accurate cuts. The integrated coolant system is designed to prolong blade life and maintain optimal cutting performance across various metal profiles and solids.

Technical Specifications

Model Number	GB4035
Cutting Capabilities	Metal Profiles, Solid Metal

Key Features

Performance Features

- Variable speed control
- Hydraulic downfeed system
- Integrated coolant system
- Robust construction

Performance Metrics

1 System

Hydraulic Downfeed
