

# Horizontal Metal Cutting Band Saw

This horizontal band saw machine is designed for cutting metal materials. Its features include a robust frame, adjustable cutting parameters, and a coolant system for efficient operation.

## Overview

### Precision Metal Cutting Solution

This horizontal band saw machine is engineered specifically for efficient and precise cutting of various metal materials. Built with a robust frame for stability, it incorporates adjustable cutting parameters to accommodate diverse metalworking requirements. The integrated coolant system ensures optimal performance and extended tool life during continuous operation.

## Technical Specifications

### Machine Type

Horizontal • Metal Cutting

### Model Number

GB4235

## Key Features

### Key Features

- Robust frame construction
- Adjustable cutting parameters
- Integrated coolant system
