

Horizontal Metal Cutting Band Saw

This horizontal metal cutting band saw is designed for cutting various metal materials. It features a robust construction with a cast iron saw frame and base, along with hydraulic downfeed control for smooth cutting.

Overview

Versatile Horizontal Metal Cutting Band Saw

The BS-128HDR is a robust horizontal metal cutting band saw engineered for precision and durability in small to medium-sized metal fabrication shops. Featuring a heavy-duty cast iron frame and base, it provides exceptional stability and vibration dampening for consistent cutting performance. This versatile machine is equipped with hydraulic downfeed control and an integrated coolant system to optimize blade life and ensure high-quality finishes on various metal materials.

Performance Highlights

Key Performance Metrics

1 HP

Motor Power

5 in

Max Round Capacity

Cutting Capacity

Cutting Dimensions

Shape	Maximum Capacity
Round	5 inches
Rectangular	5 x 7 inches

Technical Features

Construction Material	Cast iron saw frame and base
Feed Control	Hydraulic downfeed control
Cooling System	Yes
Blade Speed Adjustment	Yes
Workpiece Securing	Built-in vise

Application

Suitable Environments

- Small-sized workshops
- Medium-sized workshops
- Metal fabrication shops
