

Horizontal Metal Cutting Bandsaw with Swivel Head

This horizontal bandsaw is designed for cutting metal with precision. It features a swivel head for making angled cuts and includes a coolant system to ensure efficient operation.

Overview

Versatile Metal Cutting Solution

The BS-712GR is a professional-grade horizontal bandsaw engineered for precise metal cutting across various materials including steel and aluminum. Featuring a swivel head for flexible angled cuts and a robust motor, it delivers efficient performance for both workshop and on-site applications. The integrated coolant system and adjustable feed rates ensure high-quality finishes and prolonged blade life.

Performance

Performance Highlights

712 GR

Model Series

Cutting Capabilities

Control Features

- Adjustable blade speed
- Variable feed rate
- Swivel head for angled cuts

Compatible Materials	Steel, Aluminum, Non-ferrous Metals
Swivel Head	Yes

Technical Systems

Coolant System	Integrated system for efficient heat dissipation and precision
Base Type	Mobile base for easy transport

Safety & Construction

Safety Equipment

Emergency Stop • Blade Guards

Construction	Sturdy, robust frame for industrial use
