Product Overview

Industrial Hose Safety Restraint

The Hose Whip Safety Cable is designed to prevent hazardous hose whipping in the event of coupling or hose failure. By providing a secure restraint between hose connections, this cable minimizes the risk of injury and equipment damage during high-pressure operation. It is an essential safety component for pneumatic and hydraulic industrial applications.

Technical Specifications

Size and Compatibility

Cable Size	Hose Compatibility	Cable Length
1/8 inch	1/2 inch to 1-1/4 inch	20-1/4 inch
1/4 inch	1-1/2 inch to 3 inch	38 inch
3/8 inch	4 inch	44 inch

Maximum Pressure

200 PSI

Construction Materials

Steel Plated Cable, Plated Spring, Aluminum Ferrules, Stainless Steel Cable, Copper Ferrules

Logistics and Procurement

Delivery Terms

- Delivery Port: FOB Qingdao
- Lead time: 30 days from order signing
- Payment Terms: T/T, L/C, 30% deposit

Packaging

Polybag inside, cartons outside; custom requirements accepted.
