

Hot and Cold Water Dispenser

This compact water dispenser provides both hot and cold water. It features separate spouts for each temperature, indicated by red and blue accents.

Overview

Convenient Temperature Control

This compact water dispenser provides an efficient solution for accessing both hot and cold water on demand. Designed with a clean, white finish, it integrates seamlessly into office or home environments. The unit features distinct red and blue accents to clearly indicate hot and cold spouts, ensuring safe and intuitive operation for all users.
