

# Hot and Cold Water Dispenser with Hidden Bottle and AutoClean

This water dispenser features a hidden bottle design, concealing the water source within the unit. The AutoClean function utilizes oxygen3 technology to automatically sanitize the water tank and dispensing lines.

## Product Overview

### Modern Water Dispensing Solution

This water dispenser features a sleek, modern design with a black and silver finish, perfect for home or office environments. The hidden bottle design conceals the water source within the unit for a cleaner, more aesthetic look. It provides convenient access to both hot and cold water, ensuring versatile utility for daily hydration needs.
