

Hot and Cold Water Dispenser with Storage Cabinet

This water dispenser provides both hot and cold water options. It features dual spouts for dispensing, a drip tray to catch spills, and a cabinet base for storage.

Overview

Professional Water Dispensing Solution

This Hot and Cold Water Dispenser (Model YLR2-V12) is designed for efficient performance in office or home environments. It features a reliable compressor-based cooling system alongside a powerful 420W heating element, ensuring immediate access to refreshing cold or hot water. The integrated storage cabinet offers a practical solution for organizing accessories or housing water sources.
