

Hot-Dip Galvanized Hex Head Bolt

These hot-dip galvanized bolts offer robust and long-lasting fastening for demanding environments. Featuring a hexagonal head and full threading, they provide maximum grip and superior corrosion resistance, suitable for construction, infrastructure, and industrial machinery.

Product Overview

High-Strength Galvanized Fastening Solutions

These hot-dip galvanized hex head bolts are engineered for durability and superior corrosion resistance in demanding industrial and outdoor environments. Designed for reliability, they accommodate a wide range of international standards including DIN, ISO, and ASTM requirements. With versatile material options and robust packaging, these bolts are suitable for critical applications in construction, automotive, and infrastructure sectors.

Standards & Compliance

Supported Standards

DIN931, DIN933, DIN960, DIN961, DIN934, DIN125, DIN127, DIN6914, DIN6915, DIN6916, DIN7990, ISO4014, ISO4017, ASTM A325, ASTM A490, ASTM A563, ASTM F436, ASTM A193 B7, ASTM A194 2H

Technical Specifications

Material

- Carbon Steel
- Alloy Steel

Available Finishes

Plain • Black Oxidized • Zinc Plated • Hot Dip Galvanized • Dacromet

Strength Grades

8.8, 10.9, 12.9, gr5, gr8

Logistics & Supply

Monthly Supply Capacity

800 tons

Supply Ability

Delivery Lead Time

7-30 days

Standard Packaging

25kg per carton, 36 cartons per pallet (customizable upon request)

Applications

Primary Applications

- Building Construction
- Instrumentation
- Automotive
- Furniture Assembly
