

Hotel and Business Complex Building

This is a hotel and business complex building with a modern, geometric glass facade. The structure incorporates both high-rise and mid-rise elements, designed for urban integration.

Project Overview

Professional Architectural Design Services

This service provides comprehensive design solutions for integrated hotel and business complex buildings. With nearly two decades of industry experience, the design philosophy focuses on social creation and urban development. The team offers specialized architectural expertise for government projects, major international hotel brands, business groups, and high-tech parks.
