Product Overview

Effective Air Purification

This household air sterilization UV lamp provides a rapid and efficient solution for indoor hygiene, capable of purifying a room in just 40 minutes. It utilizes ozone and powerful UVC light to neutralize bacteria and viruses, effectively removing odors from the air. Designed for versatility, it is an ideal choice for maintaining a healthy environment in homes, offices, and small commercial spaces.

Technical Specifications

Input Voltage	AC 100-220V
UVC Power	25 W
Wave Length	253.7 nm

Performance Metrics

Operational Performance

30 m2 Sterilization Area	40 mins Sterilization Time
------------------------------------	--------------------------------------

Physical Dimensions

Unit Dimensions	160 x 140 x 235mm
-----------------	-------------------

Logistics

Packaging Information

Attribute	Value
Quantity per Carton	24 pcs
Carton Dimensions	66.5 x 44 x 51 cm

Safety & Usage

Safety Considerations

Protective Cage, Ozone Integration, Harmful UVC Warning
