

Household Cotton Candy Machine

This household appliance spins fluffy cotton candy from sugar. It features a central heating element and a transparent bowl for containing the cotton candy.

Product Overview

Fun and Easy Cotton Candy Creation

The RH-669 Cotton Candy Machine is a versatile household appliance designed to bring the carnival experience into your home. This user-friendly device works with granulated sugar, sugar-free alternatives, or even hard candies to create delicious treats. Featuring a stable suction cup base and dishwasher-safe components, it is engineered for both ease of use and simple cleanup.
