

# Household Electric Fan with Wire Cage

This electric fan is designed for household use, providing focused air circulation. It features a protective wire mesh cage and three blades for efficient ventilation.

## Product Overview

### Efficient Household Ventilation

This household electric fan is engineered for reliable air circulation and ventilation in residential settings. Featuring a robust three-blade design and a protective wire mesh cage, it balances performance with safety. Its compact, round-base construction makes it an ideal solution for maintaining comfortable airflow in various indoor environments.

## Technical Specifications

### Recommended Use

Household • Indoor Ventilation
