

Household Humidifier with Multi-Speed Fan

This household electrical appliance is designed for air humidification. It features a multi-speed fan with oscillation, a water tank with a visible level indicator, and a timer function.

Product Overview

Advanced Climate Control

This household humidifier combines air circulation with advanced misting technology to effectively lower ambient temperatures while maintaining optimal humidity levels. Featuring a high-efficiency DC motor, the unit offers energy-saving operation alongside an ionic function designed to refresh indoor air. With a versatile 9-speed fan and intuitive digital controls, it provides a tailored climate solution for any living space.
